ROBBERS ENTER HOME AND GET AWAY WITH \$100

An early evening robbery occurred at the home of Arnold F. Miller, 161 Poplar avenue, yesterday, while the family was up town. The robbers entered the home by way of a rear window and went out a rear door with their booty, which included a gold watch, a diamond stick pin, a lavalliere, some old coins and other articles, all being valued at nearly \$100.
 The robbery was discovered by members of the family who returned home about 8:30 p. m. and found bureau drawers and other possible receptacles for small articles of value ransacked and left in disorder.

COSTS FIVE DOLLARS TO HIT A MAN IN THE EYE

For hitting G. W. Fretz in the eye with his fist, last night, C. H. Barn was ordered to pay a fine of \$5 or to serve five days in jail, by the municipal court judge this morning. According to the testimony, the battery occurred at the Fretz home, where Barn had been a roomer, and was the result of a quarrel between the two men over the opinions with regard to the cleanliness of a room which had been occupied by the defendant.
 Guy Putnam, arrested yesterday by Officer William Reast on a charge of riding a bicycle on the sidewalk, was found guilty of the charge and fined \$3.

SECOND WARD BAZAAR PROGRAMS

In connection with the Second Ward Relief society bazaar, which opened last night in the ward institute, an excellent entertainment was given. Vocal numbers were contributed by Esther Harris and Josephine Shorten; readings by Zelta and Harold Ballinger and Mrs. Alfred Gladwell, and instrumental numbers by Rhea, Melba and Wendall Ogden and Maynard Peterson. The piano accompaniments for the Misses Harris and Shorten were played by Lester Hinchcliff. All of the selections were well chosen and enthusiastically received.
 The bazaar, which will also be open tonight, was well patronized and dancing in the ward hall was also enjoyed.

HOW THE PEOPLE OF AMERICA SAVE THEIR MONEY

(By A. P. Bigelow, Cashier The Ogden State Bank.)

Some very interesting figures have been issued by the United States government in connection with the savings of the American people in the various parts of the country. The figures in question show that in 1910, with a population of 23,000,000 the United States had 250,000 savings depositors with nearly \$43,500,000 to their credit in the banks.

In 1880 with a population of 50,000,000, the savings depositors numbered 2,335,000 with \$19,000,000 on deposit. In 1913, the year which the latest figures cover, the population of the United States was estimated at 97,000,000 with 10,000,000 savings depositors having to their credit no less than \$4,500,000,000.

Some important percentages can be obtained from these figures. For example, in 1880, about 1.1 per cent of the people had deposits in the Savings banks, there being on deposit about \$1.90 per capita of the total population. In 1880, 30 years later, 4.5 per cent of the people had savings accounts, the per capita savings for the entire country being \$18.40. In 1913 nearly 11 per cent of the people had savings deposits aggregating nearly \$47 per capita of the entire population. Yet we find that the average deposit of each person actually having a savings account rose from \$175 in 1880 to \$350 in 1880 and \$450 in 1913.

Considering the country by sections, the average savings deposit account in the New England districts amounts to \$417, in the eastern states \$499, in the southern states \$197, in the middle western states \$360, in the western states \$234, and in the Pacific states \$499.

To account for these differences there are many matters to be taken into consideration, one of the chief among which is, of course, the varying density of population.
 Considering the question of average incomes, expenditures and savings of the various classes of people, the government figures are extremely interesting. The following tabulation shows the manner in which the people of the United States earn, spend and save.

Class.	Income	Expend.	Sav's
Bankers and brokers	\$7,726	\$5,388	\$2,338
Lawyers	4,196	2,685	1,474
Physicians	3,907	3,190	717
Railway officials	3,441	2,812	628
Supts. Mfg. Co's	3,262	2,533	729
Clergymen	3,150	2,581	369
Professors and tutors	2,878	2,335	543
Steamboat officials	2,629	1,926	603

Next to Switzerland comes Denmark with \$55 per capita, followed by Holland and Germany with practically the same amount, after which comes the United States with \$47.
